

The following table lists the field observations from a streamflow measurement. Use these data to compute the total discharge in the stream

	Dist. From starting point	Depth	Velocity			
L.E.W.	5	0	0			
	11	2	1.5			
	15	2.5	2			
	18	2.5	1.6			
REW	20	2.5
